AgSkilled™ and Tocal College: The training you want, where you want it for

VITICULTURE - GRAINS - COTTON - RICE - PRODUCTION HORTICULTURE

Introduction to pruning for grapevines

You are invited to participate in a one-day interactive course to develop or refresh your pruning skills. Learn from industry expert Liz Riley of Vitibit, what is required to maintain and prune a grapevine, the effects of fungal disease on grapevines, and how you can avoid them by using the appropriate pruning techniques. Look at the way a grapevine grows and how this affects the way you prune to promote and maintain vine structure, vigour, growing space and vine health.

Learn why we prune, when to prune, and how to prune e.g., cane or spur pruning? Same outcome… different technique!

Course content:
- Post pruning vine treatments
- Tools for pruning, and their maintenance
- Personal Protective Equipment (PPE) for grapevine pruning
- Hazards and Risks for grape vine pruning
- Recording and Reporting pruning activities
- WHS rights and responsibilities
- WHS Recording and Reporting

Course delivery:
One-day practical workshop.

Accredited training
This training is aligned and delivered against vocational education and training requirements. Successful completion of assessment tasks will result in achieving a Statement of Attainment and can contribute to a nationally-recognised qualification.
All activities and assessment will be completed in supported environment.

Units of competency:
- AHCPHT216 - Carry out canopy maintenance
- AHCWHS201 - Participate in work health and safety processes

Course dates
Please check the Tocal website for most up-to-date locations and dates as we respond to demand and restrictions.
